Mathematics Workbook

Primary education system includes Grade 1 to 5 Books
with complete support and resources.

Sample Books

Science

Includes Living, Physical, Earth & Space

Voyager 2 Space Mission

Voyager 2 is a spacecraft. After exploring the solar system, Voyager is now heading towards the nearest star. Here is the conversation (interview) taking place between the Voyager Computer (there are no humans on this spacecraft) and the humans at the control center on Earth who control this spacecraft.

20 August 1977
Voyager 1 takes off.

One day later
Control center to Voyager 2, activate Voyager 2.

Voyager 2
This is Voyager 2. I am activated now.

STEAM Activities (Science-Technology-Art-Math)

Collect some canned foods tetchup and spices you will find them in your home kitchen cabinets. See how many natural ingredients are present in them. What are the most common chemicals and colours found in these cans and packets?

Search and find out the purpose of some of the chemicals found in these foods? Do they have a harmful effect? Find out, and then make a presentation about some of these chemicals.

No.	Foods	Natural Ingredients	Chemicals
1.			
2.			
3.			
4.			
5.			

STEAM Based Exercises

English

Develops Critical Thinking

Think about this.

These are teachers' class questions to develop students' thinking skills. You can conduct a brainstorming session in the class or give it as homework as an independent thinking activity.

- What lesson did we get from this chapter?
- Give a new subtitle name for this chapter.
- How does reading make someone smart?

Discuss with your class fellows.
"How can we help others?"

Question Making

Make some questions from this chapter and ask your classmates.

Punctuation Marks

A question is a sentence that asks something and it ends with a question mark. (?)
An exclamation is a sentence that tells something and it ends with an exclamation mark. (!)
An exclamation is a sentence that shows happiness or excitement and it ends with an exclamation mark. (!)

Logical Thinking

- Just think that suddenly black clouds appear and it starts to rain. Cool winds started blowing and your clothes fly away with it. Then what would you and your family members do? Did you go out on a picnic, to a park, or seaside? What were the things that you took with you for eating, for playing? Write an essay of about 5-6 sentences starting from the sudden change in weather.
- Write a poem about "If you were a bird". Write what are the things you would do and where would you like to go when you can fly! Use the helping rhyming words given below.
sky, high, nest, rest, wings, things, small, tall, tree, free

You may start like this

If I were a bird.....
I would fly in the sky,
Near the clouds, so very _____
I would build my tiny nest,
Where I will go and take _____

Logical Thinking

Maths

Real Problem Based

Fractions

Ahmad brought a cake for 4 of his friends.

He placed the cake in the middle and said, "This cake is a whole." Then he cut it in 2 halves and further cut it in 4 quarters.

"Now I will distribute the cake equally with the help of fractions," said Ahmad. He put the 1st piece of cake in Kasper's plate and said,

"This means 1 piece of cake is taken out from 4 pieces and $\frac{1}{4}$ of the cake is left."

Money

"My new coins and notes are more different than my old money. I have many coins. Today I opened my piggy bank. Can you count how many coins I have?"
